

## Self Discipline for Learning (SDfL) Disciplinary Stages

Stage	Examples of Behaviours	Possible Outcomes
<p>Students on stage 1 have lost their way and they are not meeting the expectations of KNBS. Our normal school systems are not having an impact on behaviour.</p>	<p>Loss of above-average points</p> <p>Consequences have not led to an improvement in points loss</p> <p>Involved in a serious incident or sustained poor behaviour leading to Isolation and/or Fixed Term Exclusion</p>	<p>Targets are met for a sustained period and the student moves down the stages</p> <p>Targets are only partially met then the student will remain on this stage for another period of time (a pupil cannot remain on a stage forever, usually more than one period of partial performance will be enough to escalate the situation)</p>
<p>Students on stage 2 have shown a sustained period of poor behaviour or have been involved in a significant incident(s).</p>	<p>Several periods of Isolation</p> <p>A Fixed Term Exclusion or at risk of Fixed Term Exclusion</p> <p>Not following instructions</p> <p>Examples of poor behaviour whilst being monitored</p> <p>Frequent poor behaviour in lesson or around school</p>	<p>Targets are not met so a student will be required to move to the next stage</p>
<p>Students on stage 3 are at serious risk of losing their place at KNBS. We have clear expectations, and pupils on stage 3 have not made sustained improvements to their behaviour or have been involved in a serious incident.</p>	<p>Difficulty in meeting targets and/or a lack of engagement</p> <p>Refusal to follow instructions</p> <p>Examples of poor behaviour whilst being monitored on report</p> <p>Frequent loss of points</p> <p>Involved in a serious incident or sustained poor behaviour leading to Isolation and/or Fixed Term Exclusion</p>	<p>A sustained improvement is shown, targets are met and the student moves down a stage</p> <p>No sustained improvement is shown, targets are not met and the student is in significant danger of losing their place at KNBS</p>
