

King's Norton Boys' School

Careers (CEIAG) Policy

Adopted by the Governing Board: 2019
To be reviewed by: 2020

King's Norton Boys' Careers (CEIAG) Policy

Introduction and purpose of our Careers Programme

In a world with a rapidly changing economic paradigm, it is essential that our students are given the knowledge and skills that will be crucial to becoming socially and economically successful in the dynamic, innovative and competitive economies of the future. The goal of the King's Norton Boys' Careers Education, Information, Advice and Guidance (CEIAG) Programme is to grow and develop the self-awareness, understanding, decision making and transition planning skills of our students.

King's Norton Boys' School places a high value on providing high quality CEIAG for our students. The outcomes of the government's 2017 policy paper "Careers Strategy: making the most of everyone's skills and talents" and the Department for Education's statutory inclusion of the Gatsby Benchmarks has led to an even more inclusive and comprehensive whole-school programme which serves to nurture the skills and knowledge that our students require to enhance their employability.

At King's Norton Boys' School, we believe that a student's Employability is the sum of their Qualifications, Work Experience and Skills. This will be developed throughout years 7 to 11 by formal careers educational visits to places of further-education, higher-education and employment.

Our students benefit from the support of:

- Independent mentoring from a qualified careers advisor.
- External speakers.
- Careers workshops.
- Careers fairs.
- Extra-curricular activities.

By developing our knowledge of careers, staff can include information within their subject lessons and form time, aiming to relate academic achievement and aspirations to drive qualification outcomes upwards. All three components of Employability will be fostered at our school, resulting in student's moving on to the next step in their lives, safe in the knowledge that they have a strong foundation to build upon.

On our careers webpages you will soon be able to find information aimed at students, parents/carers and teachers. You will soon find information on the different types of apprenticeships available as well as higher-education, College or Sixth-Form, opportunities in the local area.

Aims and objectives

King's Norton Boys' School aims to implement all of the eight Gatsby Benchmarks (see references).

The aims of our careers programme are:

- To develop student's self-awareness for determining their suitability to be successful on specific career pathways.
- To increase student aspirations and motivation so that qualification outcomes are improved, allowing them to access the desired career or aspirational pathways.
- To provide students with the opportunities to access the 'world of work' and develop their key employability skills through Years 7 to 11.
- To enhance students' employability skill through a range of experiences, activities and opportunities.

The objectives of our programme are:

- To provide students with relevant, meaningful and up-to-date information about careers pathways and the 'world of work' in each year of their time at King's Norton Boys' School.
- To give students access to relevant information and support, increasing their awareness of the opportunities open to them, for important transition points enabling them to make the most appropriate choices.
- To help students understand and develop the skills that are required to be successful in the future pathways.
- To provide students with meaningful encounters with employers, preparing them for the nature of the 'world of work'.
- To provide students with relevant careers information, guidance, help and support that are personalised to each of their own needs.
- To support work within the classroom by raising students' aspirations, challenging stereotypes and broadening horizons.
- To link careers education to curriculum learning to allow students to understand the opportunities for further education and employment in each subject.

The Gatsby Benchmarks

The Gatsby Benchmarks provide a suitable guideline for planning that will assist King's Norton Boys' School achieve an effective and successful, whole-school careers programme. The fundamentals of each benchmark are outlined in the table below:

Gatsby Benchmark	Title of Benchmark	Summary of Benchmark
1	A stable careers programme	<ul style="list-style-type: none">• Implement a stable and structured careers programme.• Have a dedicated Careers Leader within school (see contact).• Evaluate the Careers Programme with feedback from students, parents, teachers and employers.
2	Learning from Careers and Labour Market Information (LMI)	<ul style="list-style-type: none">• Ensure that by the age of 14, students have accessed career and labour market information to inform their options.• Encourage parents to access this information to support their children.
3	Addressing the needs of each student	<ul style="list-style-type: none">• Challenge stereotypes and seek to raise the aspirations of students.• Keep records of the advice given to each student and provide students with access to their records to support their career development.• Collect accurate data on the education, training, or employment training of students.
4	Linking curriculum learning to careers	<ul style="list-style-type: none">• Highlight the relevance of how your curriculum links to careers.• Teach students the importance of STEM (see references) subjects for gaining entry to a wide range of careers.• Demonstrate how STEM subjects help people to be more effective in the workplace.
5	Encounters with employers and employees	<ul style="list-style-type: none">• Give students at least one meaningful encounter with an employer, every year.• Develop links with local employers.
6	Experience of workplaces	<ul style="list-style-type: none">• By age 16, every student should have had at least one experience of a workplace.
7	Encounters with Further and Higher Education	<ul style="list-style-type: none">• By age 16, students should have encountered the full range of learning opportunities available to them, both academic and vocational.
8	Personal guidance	<ul style="list-style-type: none">• By age 16, every student should have at least one guidance interview with a trained careers advisor.

Careers programme for Years 7 to 11

--	------------------------	----------	---	------

Student entitlements

Throughout Years 7 to 11, each student is entitled:

- To find out about technical education and apprenticeship opportunities within a careers programme that offers access to a full range of education and training options, available at each transition point.
- To hear from a range of local providers about the opportunities they offer, including technical education and apprenticeships, through talks, workshops, educational trips, options evenings, assemblies and fairs.
- To receive unbiased, impartial careers advice that is in their best interests, made by a qualified independent careers advisor.
- To understand how to make applications to the full range of technical academic and apprenticeship courses.

Evaluation

Each year the Careers programme will be evaluated on a range of a data including a parent survey, a pupil survey, an analysis of the percentage of students who enter further education, employment or training, qualitative feedback and qualitative feedback from ex-students who are Not in Education, Employment or Training (NEET) as to how the school could have supported them further. The evaluation of the evidence will lead to changes made to the careers programme in order to enhance and improve it.
